

# Hillbilly Camp Ovens

'good to use everywhere from  
the backyard to the bush'

## GasKing LPG Gas Conversion

The KingCooker gas conversion system enables you to use your camp oven with the convenience and safety of LPG gas in your backyard or in the bush.

When roasting or baking the gas burner is placed on the camp oven lid with the burner side facing down to directly heat the oven lid.

For soups and stews the gas burner is placed on the ground with the burner facing upwards and the oven sitting directly over the flame as shown on the left or you can use the oven lid as a frypan as shown on the right
